Octal values should not be used

Code Smell

"case" statements should not be nested

Code Smell

Control flow statements "if", "for", "while", "until", "case" and "begin...rescue" should not be nested too deeply

Code Smell

"if ... else if" constructs should end with "else" clauses

Code Smell

Expressions should not be too complex

Code Smell

Ruby parser failure

Code Smell

Functions should not have too many lines of code

Code Smell

Statements should be on separate lines

Boolean checks should not be inverted

Analyze your code

Code Smell Minor ? pitfall

It is needlessly complex to invert the result of a boolean comparison. The opposite comparison should be made instead.

Noncompliant Code Example

```
if !(a == 2) # Noncompliant
  # ...
end

b = !(a < 10) # Noncompliant
```

Compliant Solution

```
if a != 2
  # ...
end

b = (a >= 10)
```
