▤ **README.md**

ruby-getting-started (Microsoft Windows)

A barebones Rails app, which can easily be deployed to Heroku - on Microsoft Windows.

This application support the Getting Started with Ruby on Heroku (Microsoft Windows) article - check it out.

Deploying to Heroku

```
$ heroku create
$ git push heroku master
$ heroku run rake db:migrate
$ heroku open
```

Documentation

For more information about using Ruby on Heroku, see these Dev Center articles:

- Ruby on Heroku
